I wondered if Manjoo was telling me I should put down the book, being a crazy right winger and all. This tends to conflict with our general idea that because of how readily available so much information is, we should be headed more towards a consensus of facts, of the "truth". I think the civil rights movement figures in this too: watching demonstrators literally hosed or being bit by ferocious dogs sicced on them by police eroded many peoples' faith that cops are always the good guys. Websitelanguage:. He provides extensive psychological research that proves why our brains function that way. Rather, it offers a deeply reasoned and evocative examination of the contests over the next chapter of capitalism that will decide the meaning of information civilization in the 21st century. There are too many factors and too many differing opinions for anyone to know the actual truth.
