This leadership development activity offers a self-assessment framework for people to first identify the skills, attributes and attitudes they find important for effective leadership, and then assess their own development in these areas. This is not surprising, given the fact that health care organisations are comprised of human systems where people of diverse backgrounds interact with one another for successful management of the health care system [66], and provision of safe, effective, and high-quality patient care [6768].
Really great course!!
