D-Day Deception. If the Russian player doesn't do this, this allows the German player to buy more land-based offense without repercussions on the German second turn and thereafter - once this happens, this is an economic and unit buildup that the Russian player will eventually lose, after the German player's first turn build of infantry. Denial and deception Disinformation False flag Information warfare Maskirovka Military camouflage Psychological warfare Ruse de guerre. Purchase6basicinfantryunitsandorderthenttoarriveinNis. If you believe your item has been removed by mistake, please contact Steam Support. This naturally discourages an immediate attack by Germany; If the German player attacks Karelia at this point, even to strafe down a few infantry pieces, the Germans will be wearing down their front lines as well, almost always to the point of self destruction because of the losses to infantry this assumes that the Germans brought all their fighters in on the attack, ignoring any fleet.
